

**12th Mini Workshop on Singularities, Geometry  
and Differential Equations and  
1st Meeting on Foliations and Singularities**

From January 28th to February 2nd, 2019  
Federal University of Espírito Santo - Vitória, Brazil

**Second Announcement**

Dear participant of the 12<sup>th</sup> Mini-Workshop on Singularities, Geometry and Differential Equations, and the 1<sup>st</sup> Meeting on Foliations and Singularities.

The webpage has been updated to include the main information of the joint meetings. As previously informed, it will be from January 28<sup>th</sup> to February 2<sup>nd</sup>, 2019, in the Math. Institute of the Federal University of Espírito Santo, Campus Goiabeiras, Vitória city.

During the meetings there will be mini-courses in Singularity and Foliations Theories for graduate students, post-docs and young researchers. There will be also specials lectures delivered by specialists in Singularity, Foliations, and Complex Geometry.

If you think you are able to join us, please make your registration as soon as possible at the link

Any question/problem concerning the registration or log in, please let us know through the e-mail

[mfsinges2019@gmail.com](mailto:mfsinges2019@gmail.com) (Leandro or Thiago)

We had applied for financial support to the Brazilian funding agencies. For the moment, we have no news yet. However, we hope to be able to cover local expenses for most participants.

We appreciate and ask the participants to try funding on their own universities/countries or, in their own researchers projects. This would allow us to help as many young participants as possible.

We are looking forward to welcome you all in our university and city!

Best regards,

Leandro Oliveira and Thiago da Silva.

(On behalf of the organizing committee)
